

Ordering Instructions

Most fonts are available. If not, you will be contacted for a second choice.

Cursive font examples shown work well to connect letters to make scripted words.

You may fill in a 12" x 12" page as much as possible. Prioritize your choices, in the event there is too much for one page. Please indicate if you would like to purchase additional pages in the event it does.

Very small letters are not recommended as they are hard to work with. Please print very legibly and give as much detail as possible.

Characters will be cutout of acid free, 12"x12" chipboard and/or material you provide.

Price includes material, labor and delivery to place of purchase. Additional charges will apply for shipping to a different address.

In Laser cutting of paper products there may be a slight burn smell or residue when you receive your product.

The odor will go away and, if necessary, you may wipe off your product with a slightly damp cloth.

Please allow 5-10 business days to complete.

1. Decide what you want to say
2. Choose your font
3. Choose the size of your characters. Remember, this will also affect the length of the word or phrase.
4. Do you want cursive letters tied together to form a single word?
